Making sure your voice is heard

An Easy Read leaflet about
co-production

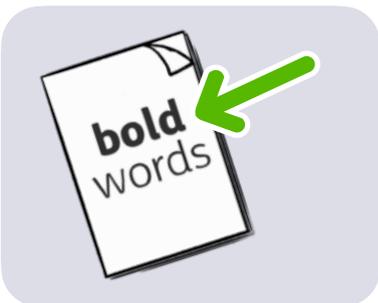

Easy Read

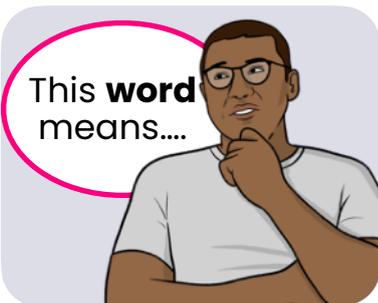

This is an Easy Read version of some information. It may not include all of the information but it will tell you about the important parts.

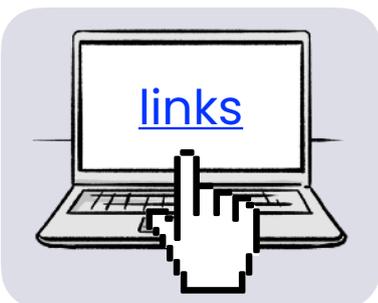

This Easy Read booklet uses easier words and pictures. You may still want help to read it.

Some words are in **bold** - this means the writing is thicker and darker. These are important words in the booklet.

Sometimes if a bold word is hard to understand, we will explain what it means.

[Blue and underlined](#) words show links to websites and email addresses. You can click on these links on a computer.

About this booklet

RWP looks after your home. RWP stands for Reside With Progress.

Your support is provided separately.

We want to make sure your support is:

- Right for you.

- What you need.

This booklet will explain what co-production is.

It will tell you about how co-production is used to make decisions about your support.

What is co-production?

Co-production means you help make decisions about:

- What support you need.

- How you get the support you need.

Your family and friends can help make decisions about your support as well.

Why is co-production important?

We believe that everyone should be able to live their life in the way they want to.

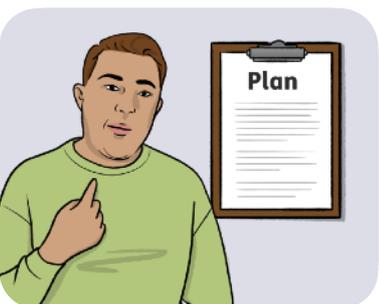

We want to support you to live your life in the best way that we can.

We think that everyone who gets support should:

- Be asked about the support they want.

- Help plan their own care.

We work with your support provider to make sure you have the right care.

We think that this is the best way for us to help you get the right support for you.

When your care is planned, you need to know what decisions are made.

This will help you to live in the way you want to.

How does co-production help keep you safe?

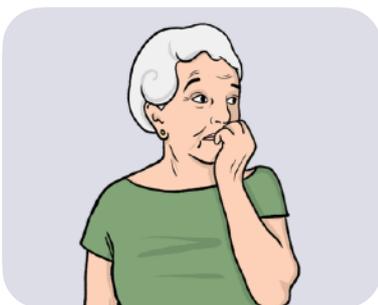

We want to keep everyone safe from harm and abuse, and make sure they are looked after in the right way.

If you help make decisions about your support, you are more likely to tell us:

- If something is wrong.

- If something is worrying you.

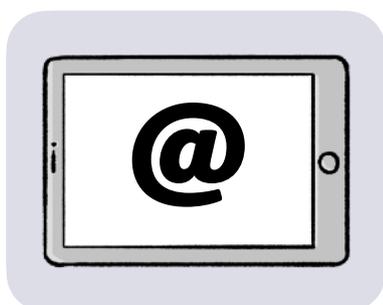

Co-production helps to make sure you are involved in all the decisions about you.
